## Bubble Up Gas and Air Leak Detector

### Overview

Fluorescent, high viscosity non-toxic gas and air leak detector.

### Description

Bubble Up is an easy to use gas and air leak detector, suitable for use on refrigeration coils and condensers, air compressors, welding equipment, medical equipment and gas appliances. The high viscosity fluorescent liquid clings to surfaces making it easy to spot any leaks. If there's no bubbles, there's no troubles! Bubble Up is biodegradable, non-toxic, non-corrosive, non-flammable and non-hazardous. Bubble Up is effective over a wide temperature range and is not affected by dirt, oil and water from condensate.

### Directions for Use

Spray liberally over the suspected area and/or around joints. Large leaks will bubble up immediately. Smaller leaks will develop over several minutes. Micro leaks may take 15 to 30 minutes to become evident. When leak testing heated surfaces remember to reapply Bubble Up, alternatively consider rewetting with water.

### Pack Size

980mL Trigger pack  
15L refill pack

### Safety Information.

This product is not considered a dangerous goods under the current ADG regulations.

Refer to the MSDS for further information.
