

## **VALUES & COMMUNITY POLICY**

We conduct our affairs in the interest of our employees & the broader community. This will be implemented through the following activities:-

- Ensuring that our operations provide appropriate safeguards to minimise the risk to employees, customers, the public and the environment.
- Communicating, listening and being responsive to our employees, customers, neighbours and governments. Sharing information concerning potential hazards resulting from our operations or products.
- Acknowledging the right of the community to appropriate information about our products, processes and activities.
- Providing relevant and appropriate information for the safe and responsible use and disposal of our chemical products.
- Being responsive and sensitive to community concerns.

**Nicholas Duncan**  
**General Manager**
